Exclusive South America (ESA)
Avenue Paisagista, Jose Silva de Azevedo Neto 200 Bloco 5 Salas 354-6
Rio de Janeiro, RJ, Brazil

Dear Sir, Madam:

First of all, sincere apologies for the delay of this much-deserved letter. It has been a very busy year so far since we were with ESA earlier this year in March in Rio de Janeiro, Brazil.

I wanted to express a big THANK YOU to the entire ESA Team for partnering with the Johnson & Johnson LifeScan Latin America Team to ensure the success of the program and creating a lasting positive impact for all the attendees.

I wanted to thank specifically Managing Director Carlos Moutinho, Sales and Operations Manager Flaviana Dias who were tireless in their dedication to our program and it's many varied requirements. Requests of simultaneous translation in three languages, room-gift program, airport transfers, tour guides, team-building activity, awards gala entertainment and décor, off-site restaurants with transportation – the list of meeting requirements went on and on.

None of this would have been possible were it not for the professionalism, commitment and responsiveness of Carlos, Flaviana and the entire team at ESA. A special thank you is extended to Fabio Jardino for all his hard work, diligence and accuracy with our invoices and billing.

Going forward, whenever we are in Central and/or South America for upcoming programs, PRIME, Johnson and Johnson LifeScan has a solid and reputable partner with Exclusive South America. We look forward to working with you again.

Best regards,

Brian Dahl
Senior Project Manager, PRIME.
